- 8:30 am - 10:30 am ***Planting the Seeds of Language*** - Kimberly P. Johnson  
Strong language skills are the foundation for creating great cognitive growth. The emergence of literature helps embed ideas not only into playtime but into listening development as well. This workshop will take a look at how language and storytelling can plant the seeds for learning in infants, toddlers and beyond. In this interactive workshop, Kimberly will share strategies on how to engage early learners and help them create stronger imaginations and reference events by sequencing. Kimberly's presentation will show participants how stories come to life. Come ready to express yourself and jumpstart your creativity.
- 10:30 am - 11:00 am Break/Visit Vendors
- 11:00 am - 1:00 pm ***Focus on Leadership: Charting a Bolder Course*** - Kimberly P. Johnson  
How well do you interact with your child care families? Do you find yourself eager to work with them and share ideas OR do you dread the interactions when they occur? These questions really define how we view our job, workplace and the families we serve. Renewing our passion and leadership skills can help create a bolder and better work environment and family atmosphere. This session will focus on interactive and engaging strategies to help change the climate and culture of the workplace. It will also provide pointers on how to implement broader lines of communication between child care professionals and the families served. Focusing on teambuilding, motivation and empowerment, participants will increase overall productivity in the workplace and community. If you are in need of a re-connection, this session is for you!
- 1:00 pm DOOR PRIZES
